

CAT & SMALL ANIMAL GROOMING PRICE GUIDE

Cats and small animals can only be groomed if they are co-operative. Cats that get highly stressed or nasty will have to be taken to a Veterinary Surgeon to be groomed under general anaesthetic. Very awkward, temperamental, grumpy, fidgety or nasty cats may need to be groomed over 2 or 3 visits to ensure that they are correctly groomed with minimum stress. Well behaved cats will be charged less than those that try to scratch and bite! Cats that have become stressed from combing or have lost excessive amounts of hair and suffered from skin trauma will not be bathed. Our experienced groomers will have an assistant to hold and steady cats and small animals whilst being groomed.
